8 May 64 memo for C/W/H/PoH  
Attn: [Helen Preest]  
Subj: Identikit

Going over the various debriefing reports on ANNUAL-1 it would appear that the defector has an excellent memory and a facility for being able to describe physical characteristics of many persons he has met but without being able to remember their names.

Two cases in point are the Nella and the Tiller. It occurs to us that possibly thought should be given to using the Identikit as a means of getting a pictorial description of persons whose names the agent does not recall but whose descriptions are still
